## PROFESSIONAL SUMMARY

---

Data Analyst with hands-on experience in Python, SQL, Excel, and Tableau, specializing in transforming raw data into actionable business insights. Experienced in KPI tracking, trend analysis, dashboard automation to improve reporting efficiency and decision-making. Strong foundation in EDA, data validation, and performance analytics with a focus on delivering measurable impact.

## TECHNICAL SKILLS

---

|                               |                                                                      |
|-------------------------------|----------------------------------------------------------------------|
| <b>Data Analysis</b>          | Data Cleaning, EDA, KPI Definition, trend Analysis, Data Validation. |
| <b>SQL</b>                    | Joins, CTEs, Aggregations, Window Functions(MySQL).                  |
| <b>Python</b>                 | Pandas, NumPy, MATplotlib, Seaborn, Scikit-learn.                    |
| <b>Excel &amp; Automation</b> | Pivot Table, XLOOKUP/VLOOKUP, Dashboard, Reporting, VBA.             |
| <b>Visualization</b>          | Tableau, Power BI.                                                   |
| <b>Machine Learning</b>       | Regression , classification, Clustering, Model Evaluation.           |

## EDUCATION

---

### Shir Ramswaroop Memorial University, Lucknow

Bachelor of Computer Application (2022 - 2025)

CGPA: 7.24

## EXPERIENCE

---

### Data Analyst Internship - Yhills

Feb 2023 - Apr 2023

- Cleaned and preprocessed raw datasets using Pandas and NumPy, handling missing values, outliers, and inconsistencies to ensure high data quality for analysis.
- Conducted exploratory data analysis using Matplotlib to identify trends, distributions, and key patterns that informed business insights.
- Executed an end-to-end analytics project from data cleaning to visualization and model deployment, demonstrating practical problem-solving and analytical thinking.

## PROJECTS

---

### PDF to Speech Conversion. (Python, PyPDF3, gTTS, pyttsx3)

- Developed a Python-based application to extract text from PDF files using PyPDF3 and convert it into speech. Implemented text parsing and audio conversion functionality to improve document accessibility and user-friendliness.

### Multilingual PDF to Speech Converter (Python, Scikit-learn, Tkinter, Streamlit)

- Built a multilingual PDF-to-speech application supporting English, Hindi, French, and Italian. Extracted and processed PDF text to generate language-specific audio output. Enabled dynamic language selection to enhance accessibility and usability.

### Hiring Analytics (Python, Pandas, Matplotlib, Tableau)

- Analyzed job postings to identify trends in salary, seniority level, location, and remote hiring. Performed data cleaning and exploratory data analysis to uncover application behavior patterns. Built interactive dashboards to track KPIs and support data-driven hiring decisions.

## CERTIFICATION

---

- Introduction to AI - IBM
- Data Visualization - LT Edutech
- Data Science Methodology - IBM
